

# Communication Campaign Performance Analysis

Dashboard, communication insights, benchmarks, and actionable recommendations for the practical exercise.

Prepared by: Rayan Faqih

# Objective & Approach

A focused analytical workflow that links performance data to communication decisions.

## Objective

Analyze campaign performance, assess the current communication situation, and translate findings into practical improvements.

## Data sources

Campaign performance, audience segments, survey results, feedback log, and benchmarks.

## Decision focus

Quality of thinking, clarity of visualization, and recommendations tied directly to the data.

## Analysis flow

1

### KPI scan

Reach, clicks, registrations, cost

2

### Channel analysis

Efficiency and budget allocation

3

### Audience insight

Stakeholders, message clarity, feedback

4

### Benchmarking

Current vs good benchmark

5

### Actions

Prioritized plan for improvement

# Dashboard Overview

Four dashboard pages were designed to move from performance monitoring to communication recommendations.

# Executive Findings

High reach was achieved, but the conversion journey and cost efficiency need improvement.

 1.0M

Total Reach

 1,640

Registrations

 5.90%

Conversion Rate

 344.77

Cost / Registration SAR

 94.10%

Drop-off after clicks

Registrations by Channel

Registrations Trend by Week

## Main takeaway

The campaign created sufficient visibility; the next improvement should focus on converting click interest into completed registration while controlling cost.

# Channel Performance

Channel analysis shows where to protect spend, scale performance, and reduce waste.

## Conversion Rate by Channel

## Channel efficiency gap

Positive = registration share exceeds spend share. Negative = spend exceeds contribution to registrations.

## Cost per Registration by Channel

## Scale

LinkedIn and WhatsApp/SMS show the strongest registration contribution and better cost efficiency.

## Review

Website Banner, X/Twitter, and Instagram require budget and message review due to higher cost or weak conversion.

# Audience & Communication Insights

The communication challenge is not only reach; it is clarity, understanding, and registration confidence.

## Audience Needs & Channels

| Audience          | Top Need                    | Preferred Channel      |
|-------------------|-----------------------------|------------------------|
| Customers         | Benefit + how to register   | Instagram / WhatsApp   |
| Employees         | How to explain service      | Email / Internal Event |
| Gov. Stakeholders | Policy relevance + outcomes | Briefings / LinkedIn   |
| Media             | Clear story + facts         | Press kit / X          |
| Partners          | Use cases + integration     | LinkedIn / Email       |

## Opportunity

Tailor the message by audience segment, with simpler benefit framing and clearer registration steps.

# Benchmark Comparison & Gaps

The campaign underperforms against good benchmarks in conversion and cost efficiency.

↓ -1.8 pp

CTR gap

↓ -6.1 pp

Conversion gap

↑ +244.77

Cost gap SAR

⚠ 60%

Negative feedback

Interpretation

Benchmarks confirm that the next phase should prioritize improving conversion quality, reducing registration friction, and shifting budget away from high-cost channels.

# Recommendations & Improvement Plan

A short, practical plan for the next campaign cycle.

## Recommended actions

1. Shift budget toward LinkedIn and WhatsApp/SMS due to stronger registrations and lower cost.
2. Reduce spending on Website Banner and X/Twitter due to high cost and weak conversion.
3. Improve the registration journey to reduce drop-off after clicks.
4. Rewrite messages to clarify the service value and registration steps.
5. Use Internal Event messaging as a model for conversion-focused communication.

## 30-day improvement plan

Week 1

### Fix registration friction

Review landing page, form steps, and CTAs

Week 2

### Message redesign

Create audience-specific value messages

Week 3

### Budget shift

Increase efficient channels and reduce weak spend

Week 4

### Test & optimize

A/B test messages and track conversion lift

## Closing message

The campaign has achieved strong visibility, but better results require targeted communication, stronger conversion journeys, and disciplined budget reallocation.
